Buying a house or a cottage,
it's much more than realizing a beautiful dream, it's an excellent investment!

Don't Panic!
Let a Caisse financial planner simplify your life. ♡

When the toilet won't flush we call in a plumber. When the car won't run we take it to our mechanic. So why are many of us so reluctant to sit down with a financial planner? Whatever you are trying to achieve - getting out of debt, saving for your child's education or something else - a financial planner can provide you with an objective and professional perspective on your finances that can allow you to see better what you are doing right, and where you can improve.

As a Caisse member you have access to financial planning services any time you need them. So what are you waiting for? Give your Caisse a call and set up an appointment today. ☺

Mayday, mayday -
I'm sinking in debt.
It may be time to consolidate. ♡

If it is getting more and more difficult to keep your head above water when it comes to paying your bills at the end of the month, it may be time to get a consolidation loan from your Caisse. A consolidation loan can lump all of your current debt from credit cards, car loans, personal line of credit and mortgage into a single, easier on your wallet monthly payment. Find out more by visiting your Caisse today. ☺

**Your Caisse -
Truly A Better Way to Bank ♡**

Just to be clear - a Caisse is not a bank, but it definitely offers a better way to do your banking. That's because a Caisse offers many advantages that your typical bank doesn't. For example, because a Caisse is member owned, you as a Caisse member get to share in its profits based on your total business with the Caisse*. Also, all Caisse deposits are guaranteed with no maximum limit, plus your Caisse is heavily invested in your community and every year it makes donations that support important community programs and events. Finally, your Caisse is committed to providing you with friendly, helpful in-person service for all of your financial needs. ☺

*Profit sharing is conducted in the form of Surplus Shares. Please visit caisse.biz or talk to your Caisse for more information.

It's Child's Play
Teaching your child about finance. ♡

Just like good manners, our attitudes and behaviours regarding money are learned early in life. If you are a good saver today, chances are that you learned your thrifty habits from your parents while you were very young. For this reason, the Caisse offers a number of online teaching aids and games that can help parents teach their children important financial skills. Here a child can do everything from learn about coins and how to make change to testing their financial knowledge playing games. These aids and games can be found in the **Caisse FUNancial Vault** found at caisse.biz and include educational tools for children from five years of age to young adults. Some of the games are even fun and educational for adults! ☺
